International Post Corporation

Limitations on international postal services to several countries in the Middle East

02-03-2026

The National Company "PoÈ™ta RomânÄƒ" informs customers about the limitation of air shipping options to several countries in the Middle East, as a result of the conflict situation in the region and the total or partial closure of airspace.

Shipments to the following destinations are affected: Israel, Iran, Iraq, Jordan, Lebanon, Bahrain, Qatar, Kuwait, Syria, Saudi Arabia, United Arab Emirates, and Oman.

In this context, significant delays may occur in the transportation and delivery of international postal items to these destinations.

International shipments that have already been submitted for these countries are prepared for shipment and will be routed to their destination as soon as airspace reopens and air travel resumes.

We recommend that customers who intend to send parcels or correspondence to the mentioned destinations do so only in cases of absolute necessity, given that delivery to the destination will only be made after confirmation of the resumption of air transport flights.

Romanian Post will return with updated information as soon as official notifications are received from international postal partners.
