Corporation

30 years of IPC

06-06-2019

In 1989, posts from across the world came together and founded International Post Corporation. In these special videos on the occasion of IPC's 30th anniversary, we look at major events that happened in the same year, highlighting how far we have come over the past 30 years.

The World Wide Web was created

The first GPS satellite went into orbit

The Berlin Wall came down
