

Royal Mail plc Full Year Results 2016-17

18-05-2017

Royal Mail plc (RMG.L) today announced its results for the full year ended 26 March 2017.

Royal Mail plc (RMG.L) today announced its results for the full year ended 26 March 2017.

Moya Greene, Chief Executive Officer, commenting on the results, said:

“We have made good progress against all of our strategic priorities. This has been a more challenging period for UK businesses and we have come through it well.

“Our multi-year focus on costs is a key priority. We are on track to avoid around £600 million of annualised costs in UKPIL by 2017-18. We are past the peak of investment; we now expect net cash investment of around £450 million in 2017-18.

“GLS is performing very well and is growing revenue organically and through acquisitions. Its deep expertise and focus on B2B parcels in multiple geographies – now 41 European countries and seven states in the US – positions it to be a greater force for growth for the Company. We will continue to invest in careful and focused international expansion by GLS.

“Through a combination of our strategic approach to costs and more efficient investment spend, we will support our progressive dividend policy with the in-year trading cash generation of the Group.”
