

FedEx Statement on Coronavirus

17-02-2020

FedEx is adhering to all regulations and guidelines from government authorities related to containment of COVID-19.

These work and travel restrictions may affect shipments inbound and outbound to/from Wuhan and other impacted cities within Hubei Province, as well as shipments moving within those cities. Customers can visit [fedex.com](https://www.fedex.com) to check the status of their shipments.

FedEx Express continues to operate inbound and outbound flights to/from China as local conditions and restrictions allow, and we are taking recommended precautions in terms of pilot, crew and customer health and safety.

The safety and well-being of our team

members is our top priority, and we are closely monitoring guidance by the Centers for Disease Control (CDC) and World Health Organization (WHO). In areas where outbreaks have been reported, FedEx is disinfecting facilities and supplying surgical masks, hand sanitizer and alcohol wipes to team members and vendors. In addition, all FedEx and vendor employees reporting to work at Mainland China FedEx gateways and ramps are temperature checked when reporting to work. We are also encouraging our team members to take any signs of illness seriously and seek medical attention as needed.
