

CTT launches the 4th edition of the Ambassador Program and welcomes 17 young university students.

19-02-2026

The Ambassador Program is an initiative that will give selected participants the opportunity to learn about the corporate and operational world of Portugal's largest logistics operator, helping them develop skills for their future careers. As an ambassador, each young person will have the opportunity to learn about the company's various business areas and its day-to-day operations, enriching and enhancing their resume and network of contacts, becoming an active representative of CTT on their university campus.

The program is aimed at young people attending higher education at the Bachelor's/Master's level, with preferred areas of study being: Computer Science, Engineering, Mathematics, Analytics, Management, Economics, Finance, Communication, Marketing, Digital and Human Resources. The recruitment process took place in two phases, starting with the online application and continuing to the interview stage, valuing skills such as: communication skills, proactivity, aptitude/interest in social networks, flexibility, team spirit, as well as a desire to participate in extracurricular activities and

embrace new challenges.

The opportunity to collaborate with CTT teams and create added value for the company, participate in various challenges and workshops, as well as engage with the academic community, are advantages for young talents who join this program.

Since its first edition, launched in 2022, the CTT Ambassador Program has already involved 62 university students who have actively contributed to bringing the brand closer to the academic community.
