PostNord receives long-term credit rating of A from Nordic Credit Rating

06-05-2025

The credit rating agency Nordic Credit Rating, NCR, has assessed PostNordâ€™s creditworthiness and assigned PostNord a credit rating of A. This rating is based on PostNordâ€™s strong position as the Nordic market leader in the parcel and logistics industry. In addition, NCR points out that PostNord has sound financial leverage and profitability, as well as strong owners in the form of the Danish and Swedish states. NCR is also of the opinion that PostNord has a stable outlook.

“The rating confirms our financial strength, with a low leverage, and that our transformation is having a positive effect. We continue to strengthen the competitiveness of our parcel and logistics operations, as well as pushing for regulatory reliefs in the Swedish mail business,” says Annemarie Gardshol, President and Group CEO.”
