Implementation of additional measures against the coronavirus: certain Swiss Post branches will open later than usual today

18-03-2020

Following the Federal Councilâ€™s decision to declare an â€œextraordinary situationâ€ in Switzerland, Swiss Post Executive Management has decided as part of an initial series of measures to equip all Swiss Post branches without closed counters in such a way that social distancing can be ensured between branch employees and customers. Certain Swiss Post branches will, therefore, be temporarily closed this morning.

Social distancing is the most effective measure to protect against infection, and is one of the FOPH guidelines being followed by Swiss Post. Branches with open customer counters will be adapted as an additional immediate measure. Certain Swiss Post branches will therefore be temporarily closed this Wednesday morning. This will enable us to provide better protection for our employees and our customers against the coronavirus.

We would like to thank our customers for their understanding. The measures implemented today are designed to protect our employees and to safeguard everyone's health.
